PROFESSIONAL SUMMARY

Product Manager with 4+ years of product experience and 10+ years of project and construction management. Experienced in taking digital products from discovery and problem definition through roadmap planning, MVP delivery, launch and continuous improvement. Strong exposure to fintech, digital payments, e-commerce and iGaming, with a practical understanding of how product, engineering, design, operations and business teams work together. Brings a delivery-led mindset, strong stakeholder management and a customer-first approach to turning complex problems into clear, usable products.

PRODUCT MANAGEMENT EXPERIENCE

PRODUCT MANAGER | SIIQO

Jan 2026 – Present

- Shaped an e-commerce marketplace around customer pain points in trust, payments, fulfilment and seller experience.
- Defined and prioritised features including vendor storefronts, escrow, pay-on-delivery, e-bidding, live chat, dispute management and referral/reward mechanisms.
- Created product requirements, user journeys and MVP priorities while balancing customer value, business viability and implementation effort.
- Worked with product, design, engineering and operations teams to turn customer and business needs into clear requirements and delivery priorities.
- Used customer feedback and product thinking to identify optimisation opportunities across the marketplace experience.

LEAD PRODUCT MANAGER / SCRUM MASTER | CANVOY PAYMENT

2023 – 2025

- Led product delivery for a digital utility-payment platform, coordinating discovery, requirements, sprint planning, delivery and launch readiness.
- Defined MVP scope and priorities while working closely with engineering and operations to resolve dependencies and delivery blockers.
- Supported payment and utility-service integrations, QA, regression testing, production deployment and launch readiness.
- Translated user and business needs into product requirements, user stories, acceptance criteria and sprint priorities.
- Introduced clearer product documentation and delivery routines to improve alignment between business and technical teams.

ASSOCIATE PRODUCT MANAGER | BETBONANZA NIGERIA

2026 – Present

- Support product initiatives across sportsbook and gaming, partnering with engineering, design, operations and business stakeholders from discovery through delivery.
- Translate customer and business needs into clear product requirements, user stories, acceptance criteria and prioritised backlogs.
- Support roadmap planning and product optimisation with attention to user experience, engagement, retention and operational performance.
- Balance commercial objectives, customer needs, regulatory considerations and technical constraints when supporting product decisions.

PRODUCT PORTFOLIO

PRODUCT	DOMAIN	KEY EXPERIENCE
Siiqo	E-commerce Marketplace	-Escrow • Pay on Delivery • Vendor Storefronts • E-bidding • Chat • Disputes • Referrals & Rewards
Canvoy Payment	Digital Payments	-Utility bill payments • Payment integrations • MVP delivery • QA • Deployment readiness

PRODUCT DELIVERY STRENGTHS

DISCOVERY → DEFINITION

Turning ambiguous customer and business problems into clear product opportunities, hypotheses and prioritised outcomes.

STRATEGY → ROADMAP

Connecting product goals to a practical Now / Next / Later roadmap and measurable priorities.

DESIGN → DELIVERY

Working with UX/UI and engineering to turn journeys and requirements into usable, buildable experiences.

DELIVERY → LEARNING

Using feedback, analytics and operational signals to improve the product after launch.

INDUSTRY EXPOSURE

FinTech • Digital Payments • E-commerce • iGaming
